

TransTasman Angus Cattle Evaluation

EXCLUSIONS REPORT

PAA

PAVEY

AUGUST 2026

INTRODUCTION

This publication contains a summary of any performance and genomic information from your herd that has been excluded from the most recent TransTasman Angus Cattle Evaluation.

Several different reports are provided within this publication, including:

- Outliers Report: a listing of any performance measurements collected in your herd that have been identified as “outliers” in the most recent TransTasman Angus Cattle Evaluation and have been excluded from the calculation of EBVs.
- Genotype Exclusions Report: a summary of any genotypes collected in your herd that have failed quality assurance checks and have been excluded from the calculation of EBVs.

Further information regarding the interpretation of the reports within this publication is provided in the explanatory notes that follow, or from staff at Angus Australia:

Ph: (02) 6773 4600

ACKNOWLEDGEMENTS

Angus Australia gratefully acknowledges the contributions of Agricultural Business Research Institute (ABRI) staff in the data preparation, analysis and output of some of the EBVs in the TransTasman Angus Cattle Evaluation, staff at the Animal Genetics & Breeding Unit (AGBU) and Meat & Livestock Australia Limited (MLA) in the development of the BREEDPLAN® beef genetic evaluation analytical software used to generate these EBVs, and members of Angus Australia who collect the pedigree, performance and genomic information that underpins the EBVs that are published.

Angus Australia also acknowledges its partnership with the New Zealand Angus Association in conducting the TransTasman Angus Cattle Evaluation, and the co-operation of the American Angus Association, the Canadian Angus Association and the Red Angus Association of America in providing EPD information is gratefully acknowledged.

DISCLAIMER

The outlier and genotype exclusions presented within this publication were generated from data supplied to Angus Australia by members and/or third parties. Whilst every effort is made to ensure the accuracy of the data, Angus Australia, its officers and employees, assume no responsibility for the accuracy of the information, nor for the outcome (including consequential loss) of any action taken based on the information presented in this publication.

Table Of Contents

<u>Report</u>	<u>Page</u>
Outliers - Summary	1
Outliers - Detailed	2
Genotype Exclusions	3

OUTLIERS - SUMMARY

There are no outliers to list for your herd from this analysis

OUTLIERS - DETAILED

There are no outliers to list for your herd from this analysis

GENOTYPE EXCLUSIONS

There are no genotype exclusions to list for your herd.
